Use	Central roller shutter push button allows for central control of roller blinds. The roller blind button DZP1.01 connected to group and local roller blinds controllers, can be used as a central roller blind push button. Thanks to it, it will be possible to open and close all roller blinds from one place. A central button installed in a convenient place will make it easier and faster: lowering all roller blinds in the house when we go to work or go to sleep, raise all roller blinds when we get up in the morning or return home.
