Roller blind controller, 8A, anthracite, metallic

Series	Simon 54	ETIM Class	EC000044 roller blind switch/button	Outer carton quantity	10
Product name / Type	roller blind controller	In print/Pictogram	roller blind symbol	Measure unit	Qty.
Color	anthracite, metallic	Type of material	Plastic, PC, Halogen free	Individual packaging EAN code	5902787871734
Product type	module	Surface protection	varnished	Pack. type	blister
Nominal current	8 A	Type of surface	matt	Ind. pack. height	15 cm
Nominal voltage	230 V	Mounting method[ETIM]	flush mounted	Ind. pack. width	10 cm
Connection type / Crimp type	Screw	Fixing method	claws / screws	Individual packaging length	6 cm
IP degree of protection	IP20	Height of product	75 mm	Weight of individual packaging with product	0.115 kg
Notes	Installation of roller blind switches requires additional wiring	Width of product	75 mm	Outer type	cardboard box
Backlight,	yes	Operating method / Way of operating	rocker button	Height of outer	10 cm
		Number of buttons / levers	1	Outer width	19 cm
		Connection layout	Other	Outer length	32 cm
		Mechanical control	Yes		
Use	The local controller is used to control the motor of a single roller blind. It is the basic element needed to create a central roller blind control system in the house (with group and central controllers). Electronics used in the local controller allows for "automatic calibration" of the roller shutter - you do not need to hold the button all the time until the roller blind is completely open or closed, the favorite roller blind position - the roller blind will open/close to the programmed position, e.g. when you want to cover the window only partially .
